

2nd NuMI Off-Axis Experiment Detector Workshop at Argonne National Laboratory

The primary goal of the workshop will be to review the ongoing and past relevant R&D efforts as well as the current state of the knowledge of potential detector technologies for a NuMI Offaxis experiment. Progress towards a proposal will also be a major topic of discussion.

**Bldg. 362, Room F108
Friday, Saturday, Sunday
April 25, 26, and 27, 2003**

**Host: Adam Para FermiLab
